WEBINAR : HACKING GOD'S OWN PROGRAMME

On behalf of BSH Department, RERF, organized a webinar entitled “Hacking God's Own Program: How Synthetic Biology May Change the Future of the Engineering and Technology” at Regent Education and Research Foundation on 22.08.2020 from 11:00 am on Google meet platform.

In the inauguration program, a warm welcome address was given by Dr. Mahuya Das, Principal, and RERF. The program was hosted by Dr. Anindita Das, an Assistant Professor of RERFGOI. The day's program was ended with vote of thanks by Dr. Rajdeep Chakravarty, HOD, BSH Department.

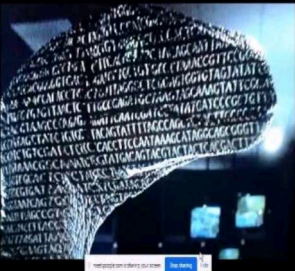

The resource person for the webinar was Dr. Sangram Bagh, an Associate Professor, Biophysics and Structural Genomics Division at Saha Institute of Nuclear Physics, Kolkata. The program began with a welcome address by the Principal of RERF, Dr. Mahuya Das. It was followed by an exhilarating session by the speaker, where he spoke about the advent and progress of synthetic biology to ameliorate mankind. There were a few questions by the audience, which were addressed by the speaker.

REGENT EDUCATION & RESEARCH FOUNDATION GROUP OF INSTITUTIONS

Electrical & Electronics Engineering Department of Regent Education and Research Foundation Group of Institutions has organized a one day webinar program on “Operations Management & Decision Making” on 17th August, 2020. The program was organized via online platform (Google meet: <https://meet.google.com/fja-xjq-pqx>) due to pandemic situation.

The organizing committee was formed as follows

ORGANIZING COMMITTEE		
Organizing Secretary	Suman Kumar Dey	HOD, EEE
Convener	C Rajalakshmi	Assistant Professor
Coordinator	Ashmita Guha Chowdhury	Assistant Professor
Member Secretary	Anukul Sikder	Assistant Professor
Member Secretary	Shreyasi Sengupta	Assistant Professor

In the inauguration program a warm welcome address was given by Dr. Mahuya Das, Principal, RERFGOI. The program was hosted by Ms. Shreyasi Sengupta, assistant professor of RERFGOI. There was scheduled a questionnaire session for the audience with the speakers and the day's program was ended with vote of thanks by Mr. Suman Kumar Dey, Organizing Secretary of the program.

Transformation Process

- Physical: as in manufacturing operations
- Locational: as in transportation operations
- Exchange: as in retail operations
- Physiological: as in health care
- Psychological: as in entertainment
- Informational: as in communication

Productivity Increase

Strategies

Mission:
Define mission as the purpose of the organization
> What it will contribute to the society
> It provide boundaries

Strategy:

- Organizational
- Each functional area

SWOT Analysis

How to achieve Missions?

- Differentiation (providing uniqueness)
- Cost leadership
- Response (flexible, reliable, and quick)

6x Strategies

1. Flexible design and volume
2. Low price
3. Delivery
4. Quality
5. After Sales and Service
6. A broad product line

Decision Analysis

- Decision making under Certainty
- States of nature
 - Events that may occur in the future
 - Examples of states of nature:
 - high or low demand for a product
 - good or bad economic conditions
- Decision making under risk
 - probabilities can be assigned to the occurrence of states of nature in the future
- Decision making under uncertainty
 - probabilities can NOT be assigned to the occurrence of states of nature in the future

REGENT EDUCATION & RESEARCH FOUNDATION GROUP OF INSTITUTIONS

Electrical & Electronics Engineering Department of Regent Education and Research Foundation Group of Institutions has organized a one day webinar program on “Electrification of Railway” on 8th August, 2020. The program was organized via online platform (Google meet: <https://meet.google.com/wkq-judt-qtw>) due to pandemic situation.

The organizing committee was formed as follows

ORGANIZING COMMITTEE		
Organizing Secretary	Suman Kumar Dey	HOD, EEE
Convener	C Rajalakshmi	Assistant Professor
Coordinator	Ashmita Guha Chowdhury	Assistant Professor
Member Secretary	Shreyasi Sengupta	Assistant Professor
Member Secretary	Anukul Sikdar	Assistant Professor

In the inauguration program a warm welcome address was given by Dr. Mahuya Das, Principal, RERFGOI. The program was hosted by Mrs. Ashmita Guha Chowdhury, assistant professor of RERFGOI. There was scheduled a questionnaire session for the audience with the speakers and the day’s program was ended with vote of thanks by Mr. Suman Kumar Dey, Organizing Secretary of the program.

Power System Optimization Using General Algebraic Modeling System (GAMS)

Dr. Pranda Prasanta Gupta
Assistant Professor
Department of Electrical Engineering
Rajarambapu Institute of Technology, Maharashtra

GAMS AT A GLANCE

- High-level modeling system for mathematical programming & optimization
- Broad User Community & Network
- Broad Range of Application Areas
- Lots of model templates
- Strong development interface
- Consistent implementation of design principles
 - Simple, but powerful modeling language
 - Independent layers
 - Open architecture: Designed to interact with other applications

GENERAL STRUCTURE OF GAMS CODE

Set, Variables, Scalar, Parameter → Equation 1, Equation 2, Equation 3, Equation 4 → Model 1, Model 2, Model 3 → Solve → Output

Computing the SVD of a Matrix

Thus, the same algorithm that computes the eigenpairs for $M^T M$ gives us the matrix V for the SVD of M itself. It also gives us the singular values for this SVD: just we have to take the square roots of the eigenvalues for $M^T M$. The same way we can compute U also.

$$MM^T U = U \Sigma^2 \quad (8)$$

That is, U is the matrix of eigenvectors of MM^T .

Here each of these matrices have r columns, while $M^T M$ is an $n \times n$ matrix and MM^T is an $m \times m$ matrix. Both n and m are at least as large as r . Thus, $M^T M$ and MM^T should have an additional $n-r$ and $m-r$ eigen pairs, respectively, and these pairs do not show up in U , V , and Σ . Since the rank of M is r , all other eigenvalues will be 0, and these are not useful.

Conclusion

- Advantages of completeness in Network Level.
- Data sources that are massive, automatic and unpredictable with rapid updates are here to stay.
- We have used a large-scale social interaction data of Facebook. This interaction data is used to construct a large undirected unweighted social network having 4039 vertices and 88234 edges. Here our methods do not find the elements that are heavy hitters. This saves an additional factor of $O(\log n)$ to our space requirements.
- Apart from the two main algorithms there are some derived results that will be concluded for various problems related to streaming settings in future by making them more tightened.

STATOR EARTH FAULT PROTECTION (100%)
20Hz PRINCIPAL

STATOR EARTH FAULT (100%) WITH 20Hz VOLTAGE INJECTION

Continuously the 20Hz Generator injects 250Volts across the 100T Secondary Circuit and the Current is also monitored into the Relay. Under normal Running condition, when there is no Fault, the I_{ref} is monitored along with the I_{act} . With the value of I_{act} being very low, the value of the resistance is high indicating there is no Fault. However in case of a fault, the I_{act} increases reducing the value of the Resistance and there are 2 stages in the relay, at one stage the alarm is generated (i.e at 40kOhms) and at 5 kOhm Cross the trip is generated.

The greatest advantage of this circuit is that
 (i) Stator Earth Fault can be tested under Generator Standstill condition also.
 (ii) Continuous Supervision of I_{act} and I_{ref} helps in Supervision of the circuit. If the I_{act} falls below a threshold value the supervision alarm is generated indicating a problem in the secondary circuitry of the 20Hz injection.

Title of the Webinar:

"Recycling of Plastic Waste To Plastic Composite Product : Waste to Wealth"

Plastic recycling is the processing of plastic waste into other products. Recycling can reduce dependence on landfill, conserve resources and protect the environment from plastic pollution and greenhouse gas emissions.

Objectives of the practice:

- ❖ To educate the public on the recycling of plastics to protect the environment.
- ❖ To encourage individuals to adopt the practice of plastic recycling and resource management.

This National Webinar was conducted on 17th September, 2020 at 4:30 P.M , organized by BSH Department. The event aimed to provide a platform for individuals to engage in different seminars about the practice of recycling plastic.

The organizing committee was formed as follows :

Organizing Committee		
Convener	Dr. Sudip Chatterjee	Associate Professor
Co-ordinator	Dr. Rajdeep Chakravarty	Assistant Professor
Member	Dr. Nibedita Mukharjea	Assistant Professor
Member	Mr. Avik Ghosh Dastider	Assistant Professor

After inauguration, our honorable Principal Madam Dr. Mahuya Das delivered a welcome address. Then our Speaker Dr. Santanu Bhowmick started his lecture. His lecture was based on Utilization of plastic. How we can use waste (which is mainly plastic) to a usable one. It was a very enriching session. It was a way out for utilizing waste plastic to useful one.

Our Speaker Dr. Santanu Bhowmick is the Head of Research and Projects, School of Engineering, Coimbatore . Professor of Aerospace Engineering, School of Engineering, Coimbatore . Professor of Civil Engineering, School of Engineering, Coimbatore. Amrita Vishwa Vidyapeetham (Amrita University) Adjunct Professor Center for Advanced Materials at University of Southern Queensland, Australia.

The college faculties, students, other staff members who were attached to RERF also attended the webinar. The last session was question - answer session. Dr. Bhowmick explained the queries. After that, Dr. Sudip Chatterjee, convener showed his views in this respect. Finally it ended with the vote of thanks given by Dean of RERF, Dr. Ashoke Kumar Shaw.
